

CAMPS BAY HIGH SCHOOL

Newsletter #09_2018

16 March 2018

Dear Parents

The Governing Body of Camps Bay High School plays a vital role in the success of the school. They literally create the enabling environment that allows us to do our work.

The current large building project is a case in point. The Governing Body has managed our finances in a way that has created the excess funds that has allowed us to proceed with this ambitious five-classroom and two-laboratory build.

The current governors have come to the end of their term of office and they must be commended on the incredible job they have done. Their list of achievements from big to small projects is impressive and this is all above doing a superb job of their 'normal' roles of governance. The bar has been set high for our new governors. Allow me to introduce the parents who are standing for election for the next three-year cycle. Please see their resumes further on in this newsletter.

The process going forward is that on **Monday, 19 March 2018 at 5:30 p.m.**, **Mr Collier**, our electoral officer, will decide if we have a quorum (10% of all parents). For us, this is 126 parents. If we have a quorum we will open nominations and allow a brief period of time for people to still stand at the last minute. Once nominations are closed, he will determine if we need to vote or not. We need **seven parent governors**, so if there are more than seven nominations, we will go to a vote.

After the voting is complete we will count the votes and report the result to any parents who wanted to wait to hear the outcome. The entire process should take 40 minutes, so we estimate that we should conclude by **6:30 p.m.** for the latest.

I encourage you to come and cast your vote and support this process by ensuring we have a quorum. Thank you to the following parents who are prepared to stand for elections:

Dale Knowles-Gaylard

My Family @ CBHS

Husband: Anton Gaylard
Children: Kira (Gr11 CBHS) & Liya (Gr8 CBHS)

Standing for the SGB

As in the past, I believe that it's important to build upon the achievements, efforts and accomplishments of the current and past SGB's. Our job is not to manage the school, but rather ensure "good governance". Supporting David De Korte is crucial and ensuring the well-being, safety and education of our youth, critical.

Past Experience

I have been privileged to date of enjoying a life wherein I have gathered a wealth of skills, knowledge, experience, insight and aptitude from the education, travel and business backgrounds that I have been involved in.

From property development, the Waterfront and running my own businesses in backpacking, wellness for mothers & children and consulting, I find that I immerse myself in the enjoyment of the task at hand and am always looking for opportunities to learn and know more.

About Me

I am a mom, wife, sister and daughter and proud South African! I was recently asked "what my passion was?" I find this one of the most difficult questions to answer. For me, everything I set out to do I do with enthusiasm and the will to do it with integrity and to the best of my ability. Whether it's being a waitress, cleaning pub toilets or presenting a business strategy, this has always been the way I tackle the job. I am committed, honest and dedicated and well respected for not compromising myself for the sake of popularity. I have perseverance and the ability to "see the wood for the trees". I am diplomatic, but a fierce defender of fairness and non-discrimination on any level. I believe in finding the solution rather than drowning in the problem.

If I have a weakness (and I probably have many), it's that I have high expectations and do not "suffer fools lightly".

Past Involvement: Camps Bay Schools

I was very involved in Camps Bay Primary School, firstly on the PTA and then for three years as the chairperson of the governing body. I sat on the board with some incredible individuals who brought eagerness, professionalism, expertise and well-thought opinion to the table. I enjoyed the debates and discussions that generally lead us to making the right decisions. I was fortunate to get a very good and real understanding of the character of the Camps Bay Schools and of having been able to give Mr. Collier the support needed to ensure that he could operate the school in the best possible way along with his management team.

As a family, we love supporting and attending various functions and sporting events and couldn't be happier to be members of the Camps Bay Schools' communities.

Congratulations

We had a number of parents, pupils and teachers cycling in the Cape Town Cycle Tour last weekend.

Well done to **Mr Becker** for doing the tour in 4hrs and 4 minutes. Closely followed by **Steven Kreeftenberg** and **Samuel Hulme** in Grade 12.

Parents Driving onto Campus in the Mornings:

The Prefects have an important job in the morning at the front motor gate:

From **07h30 a.m.** to **08h00 a.m.** they need to ensure parents not to drive on campus. Parents driving on campus is unsafe for children walking onto campus at that time and also can create massive congestion.

Please assist **by not driving onto campus for this half hour**, but rather by dropping off your child at the top or bottom stop and drop and let them walk the last 80 meters onto campus. This is a difficult job that the prefects have to do and they need our support and deserve our respect.

I will be away in Dubai over the weekend attending the Global Education and Skill Forum 2018.

Yours sincerely

David De Korte

CINDERELLA

Camps Bay High School Cinderella/Prince Charming Project 2018

Every year the Matric Dance brings with it some anxiety, sadness and even tears for some of our pupils who cannot afford a matric dance dress, shoes, jewelry or Men's suits, bow ties/ties for the boys. This sometimes prevents pupils from considering going to their Matric Dance.

What many of you as Parents and Guardians may not know is, we as a school have looked out for these pupils for years and made the impossible possible and always managed to assist learners in need for their Matric Dance.

This has been largely driven by our librarian **Anneke Bright** who keeps clean and with the help of a mom or two mends a wardrobe of dresses, some jewelry, shoes and **SADLY ONLY 1 SUIT (boys)** for use by our pupils in need. We would like to keep this initiative active and help **Anneke Bright** to source **NEW stock of Cinderella dresses and importantly Prince Charming's suits please too for the boys.**

Please the CBHS family which we are, ask family and friends to go through their closets and donate in ALL SIZES, short and long Evening/Dance dresses, Men's suits, ladies and men's shoes, jewelry, clutch bags, evening purses, men's suits, and bow ties etc.

We also need suit and dress bags to preserve the clothes between uses.

Please drop all donations with Ashely at the Camps Bay High Schools reception and marked for Anneke's attention.

You will be helping make a significant night in a child's life which is an important right of passage for all Matric pupils possible !

CBHS Classroom Fans Fundraising Initiative 2018

We are already in February and the start to the year has been a busy one. Our fundraising initiatives for our school this year is to secure funds for **40 standing classroom fans** to make the classrooms more comfortable for our children. Many of the classrooms have film on the windows to reduce heat and curtains but this still does not help to cool the rooms sufficiently or circulate the air in the classrooms. An appeal has come from the school management for assistance with this project . We are therefore asking **ALL** parents for donations towards this project. The price of a 45 cm fan at Makro starts at around R449.00 each.

Please consider donating money toward this project or if you decided to buy a standing fan (45 cm or more) for the school please drop off the fan at CBHS reception and you make sure we know who it comes from, your child's name and grade. If you deposit money please use the account detail below :-

**STATEMENT BY THE CITY'S EXECUTIVE DEPUTY MAYOR,
ALDERMAN IAN NEILSON**

Continued savings must remain part of our long-term strategy to avoid Day Zero

The City's dashboard for this week shows a slight increase in water consumption. This bucks the recent downward trend of the last few weeks. Overall consumption as at 5 March 2018 was measured at 537 million litres per day (MLD) which is up from 516 MLD consumption recorded in the previous week.

Dam levels have dropped by 0,4% to 23,6%. Please see <http://coct.co/water-dashboard/>.

The City now projects that, if there was to be no rainfall, Day Zero would arrive on 27 August 2018. As this date falls deep within the normal rainfall period, it is no longer appropriate to project the date without any consideration of rainfall. Thus, provided we continue our current water savings efforts, Day Zero can be avoided completely this year. It is now up to all of us. If we keep on saving, we will not have to queue for water this year.

I would therefore like to urge all Capetonians not to relax their savings efforts. While we are feeling more confident of avoiding Day Zero this year, we cannot predict the volume of rainfall still to come. If winter rainfall this year is as low as last year, or even lower, we are still in danger of reaching Day Zero early next year.

Now is the time to entrench our water saving habits and ensure that the behavioural shift we have undergone in the past months becomes second nature.

More and more Capetonians have met the challenge by lowering their consumption. Our water map shows a 5% increase in the number of households that used less than 6 kilolitres a month in January, as compared to December (see link below).

Our challenge now is to continue reinforcing these behaviour changes, and to spread the message among our communities, at the workplace, at home, at school. Everywhere we go, we have an opportunity to act as water ambassadors and ensure that each and every Capetonian is aware of the seriousness of the situation. There is no shortage of water-saving resources that can be distributed to ensure that everyone gets the message.

A range of online resources can be found on the City of Cape Town's website (see link below).

These resources include videos, presentations, posters, community water plans, checklists, stickers, water-saving tips, guides to finding and fixing leaks, grey water guidelines, and more. I would like to urge all Capetonians to make use of these resources.

The City is continuing to roll out its pressure demand management programme, and installing water meters at the homes of high water users. Together with our residents, we can bring consumption down to the required 450 MLD. If we redouble our efforts to ensure that every single resident uses no more than 50 litres of water a day, we will not only beat Day Zero this year but also avoid it next year.

Please visit www.capetown.gov/thinkwater for all water-related information, including information on Level 6B restrictions and FAQs about Day Zero as well as tips to lower usage even further.

Over the last year they have been invited to talk at various Rotary clubs and schools in the Cape Peninsula. Please e-mail them if you would like them to talk at your club or school.

HAVE YOUR SAY! RENAMING THE LITTLE GLEN NATURE RESERVE TO ARTHUR SHEPHARD LITTLE GLEN NATURE RESERVE

The City of Cape Town invites public comment on the proposal received that the Little Glen Nature Reserve be renamed in honour of Arthur Shephard.

The renaming submission is motivated for by the late Arthur Shephard, who in his personal capacity and mostly at his own expense, both in financial terms and time wise, coordinated the transformation of the Little Glen Nature Reserve from a run-down unsafe public space to an area that is well landscaped, secure and a community attraction, particularly for children. He achieved this with the cooperation of the local community, volunteers and the then City of Cape Town's City Parks Department.

In terms of section 17 of the Local Government: Municipal Systems Act, Act 32 of 2000, the public and interested parties or groups are given the opportunity to submit comments, recommendations or input to the municipality from 1 to 31 March 2018.

Comments, input or recommendations can be submitted by:

- E-mail: naming@capetown.gov.za
- SMS: 31046
- On-line: www.capetown.gov.za/haveyoursay
- Written submission: PO Box 298, Cape Town 8000 (For attention: Manager: Public Participation Unit)
