Newsletter #40_2018

23 November 2018

Dear Parents,

As we approach the end of 2018 school year, we begin to go through the 'lasts'. Last night a significant 'last' Governors Meeting took place. It was the last of 12 Governors Meetings that are held over the year. Each meeting is about three hours long; just in the normal meetings we are looking at over 36 hours. Then the Governors are also expected to attend a number of school activities and functions, which include the Sports and Cultural Evening, Celebration and the Budget Meeting (roughly another eight hours). A big thank you for the 46 hours that our Governors spent on campus this year.

The nature of our Governing Body is to allocate portfolios and so in many cases this necessitated even more time on campus through the course of the year. The Treasurer has held weekly meetings with the Bursar, the Governing Body Chairman holds meetings with me at least twice a week, not to mention the Discipline and Special Projects portfolio heads.

Who are these hard-working parents?

Let me thank them now by name, the 2018 parent governors were:

Colin Harvey (Chairman);

Werner Thetard (Deputy Chairman);

Brian Williams (Treasurer);

Michele Harvey;

Amanda Tobias;

Juma Mkwela;

Sergio Yesca;

Alten Hulme;

Wendy Foster;

Janine Thetard.

Some of the Governors will be ending the term of office at the close of this year and I will mention them in next week's newsletter.

Congratulations to the Following Life Savers:

Teagan Thompson and *Kira Gaylard* have both been selected as Vice Squad Leaders for Arcadia Squad and Barco squad respectively for the second season in a row. They will be doing duty on the Clifton beaches this season, along with the people below:

Daniel Thetard, *Luca Novak*, *Alexa Spitzer*, *Jamie Shrimpton*, *Georgia Goldie*, *Fahzelet Manuel* and *King Langdon* will be a part of the Lifeguard Squads on duty on Clifton this season. It will be *Daniel*, *Luca* and *King's* first season as lifeguards.

Help Required in the Gardens:

Colleen Stoltzman, mom of *Ben Stoltzman* in Grade 8, volunteers her time to help with our gardens at the school. As everyone knows, Cape Town is currently in a water crisis and watering of gardens can only take place by hand, with watering cans, which is obviously very time consuming.

If anyone is willing to help Colleen with the watering of the garden, please contact her on colleen@provending.co.za. Helpers must bring their own watering cans and be able to carry watering cans filled with water.

Please be advised that the matric results will be available for collection at school on **Friday, 4 January 2019** from **11h00** to **12h00**. Results will be available on WCED website from **14h00**:

This weekend, the Staff and Governors will retire to the Mont Fleur guesthouse in Stellenbosch for Friday night and Saturday. This will be the teachers' Strategic Planning moment for 2019.
