

# CAMPS BAY HIGH SCHOOL

## Newsletter #12 2019

5 April 2019

### Dear Parents,

The Second Term got underway on Tuesday and we are already going full steam ahead. We still have about 20 uncollected reports from the end of the First Term, so if you haven't requested your child's report please send them to school with a letter on Monday.

At the end of last term, we were a little unhappy with parents who took their children on holiday in the last week. A reminder that these are normal school days where we do work. At the end of this term we will again be making use of each day until the last day, so please book your holidays for departure on the last day of term and not before.

We have taxi issues in Hout Bay that are disrupting the smooth transport of pupils using taxis and MyCiti buses to get to school. If you drive past the MyCiti stop and see Camps Bay pupils waiting, could you please consider stopping and giving one or two pupils a lift while their normal service is disrupted?

### Curriculum Review for the Future

The Governing Body has embarked on a review of our curriculum. We have always hoped that our school leavers at the end of five years at Camps Bay High School would be equipped with the skills both formal and informal to prepare them for life in the real world. The world economic forum identified the following as the must-have 21st Century skills. **Complex problem solving, critical thinking, creativity, people management, working in teams, emotional intelligence, decision making, service, negotiation and cognitive flexibility.** I am hoping that we are already equipping our pupils with most, if not all these skills, in some way or the other. For example, service isn't really addressed in the formal curriculum, so we create service moments in the school to grow this aspect. As part of this we insist every child take part in a service project in Grade 10.

Returning to the formal curriculum, the school leadership and governors have started to look at the subjects we offer to be sure that this is also aligned with those exit skills we are wanting to impart. As part of our research we have sent out a survey to the Grade 6 and 7 parents in the Primary School and our Grade 8 and 9 parents in the High School. We are trying to gauge the interest in the new subjects that are being added to the National Curriculum. So just a caution that this is just to gauge interest. We are no where near making any decisions on adding any of these options to the Camps Bay High School subject offering just yet. Thank you for assisting us by responding to this questionnaire.

### Dropping Off and Fetching Children

A reminder to all parents that your children are to be collected from the Stop 'n Drop parking areas located outside of the school premises and NOT from inside the school grounds. Absolutely NO parents should be driving onto the premises between 07h30 a.m. and 08h00 a.m. in the morning and between 2h15 p.m. and 3 p.m.

## Derby Day vs. Jan van Riebeeck - Saturday, 12 April 2019

The Annual Derby Day against Jan van Riebeeck will be played away this year. All pupils who participate in winter team sport are expected to be there as we need all our players to field the teams required by Jan van Riebeeck.

Please also note that it is **COMPULSORY** for ALL Grade 8 and 9 students to attend. The prefects will be taking roll call at the Derby Day and issuing detentions to students in Grade 8 and 9 who are not present for roll call.

Note, all pupils attending the Derby Day **MUST** be dressed in **FULL SCHOOL UNIFORM** or **SPORTS KIT**. This rule applies for all the Grades, not just Grade 8 and 9.

If your child needs transport via bus from Camps Bay High School to and from Jan van Riebeeck, they must please let Mr. Nyathi know after Assembly on **Monday, 8 April 2019**.

## GAP (Get Ahead Programme)

The GAP Calendar for Term 2 is attached to this newsletter. These classes are for children needing extra help. We encourage all students needing help to attend these classes, which are offered by teachers, free-of-charge.

## Tests & Assignments Calendar

We are finalising the Tests & Assignments Calendar- this will be issued next week.

## Term 2 Sports Fixtures

Please see the Sports Fixtures attached with this newsletter.

## Climate Strike

Well done to all the students from Camps Bay High School's Environmental Club and PR Team for their efforts at #ClimateStrikeCapeTown on **15 March 2019**. They joined over 2000 students from schools all over the Peninsula. Camps Bay students made quite an impression and were featured on ETV and ENCA News. It was reported that 1 million pupils from 125 countries took part in this protest on the day. It was nice that our own environmental activists were part of this movement.

## Basketball Teams Excel in Top Schools Tournament

Huge congratulations to our Basketball Teams who played in the Basketball Top Schools Tournament at Settlers High over the holidays. The Girls were placed third overall and the Boys were placed fourth.

## Rugby Tour Sees Huge Wins For Camps Bay

The First XV went on their Annual Tour to Graaff-Reinet in the school holiday. They did exceptionally well beating the formidable Queen's College team 26 -25 and Spandau Secondary School 12-7 in their final game. This ends a very successful pre-season for them, with four wins in a row.

## Girls Hockey Tour to George

Our U19 and U16 Hockey Girls went on tour to George over the school holidays and competed in the Southern Cape Sports Tournament with the top hockey schools in the country.

The tournament was an incredible learning experience for our girls who grew stronger throughout the very tough tournament and gained skills they will be able to put into practice this season.

## Four Students Selected to Represent Southern Cape Hockey Team

Congratulations to four of our hockey girls who have been selected to be part of the Southern Cape Team who will be touring in Ireland in September this year.

*Paige Cumming, Maxine Hammond and Shantel Chinangwa* were selected to be part of the Southern Cape U19 Tour Team, and *Abigail van der Spuy* was selected to be part of the Southern Cape U16 Tour Team.

It is a great honour to be selected from the 2600 participants.

## Chiara Ross Sails to Victory

Well done to Grade 9 student, *Chiara Ross* and her team who recently sailed the MAC 24-Hour Challenge. Her team finished first in their Class (420) and finished sixth in the line honours (distance sailed).

The MAC 24-Hour Challenge is the only sailing event of its kind in South Africa. It is an endurance distance race that is sailed for 24 hours non-stop. The team sails two sailors at a time and alternate for 24 hours. It teaches children leadership skills and strength of mind through outdoor pursuits and brings together people from all social levels in friendship.

## President's Silver Award Recipients

Congratulations to *Alaya Ashby* and *Thandeka Mdawini* for attaining the Silver Standard of The Duke of Edinburgh's International Award - The President's Award.

## Alexandro da Silva Represents Camps Bay High School at Highest Level in SA.

We are incredibly proud of *Alexandro da Silva* who has proven that hard work and determination pays off. He was chosen to compete at Western Province Championships in the 5000m U-19 Men's Race, in which he came second! He later went on to compete in the National finals and although he was not well on race day, he still managed to come 12th in the country.

## French Exchange Group

The French Exchange Group had an incredible cultural experience when they visited France and Spain in the school holidays. The students stayed with families from Toulouse and attended school there, giving them a real taste of French Culture. They also had time to take in local sights and attractions.

## Thailand Tour

The Thailand Tour was most enjoyable and left students with memories to last a lifetime.

## President's Silver Award Hike

Some of our students who are going for Silver in the President's Award this year, completed the tough Tsitsikamma Trail over the school holidays. The group included *Sean Pape*, *Catherine Crane*, *Amy Bysshe*, *Kiera Kresfelder*, *King Langdon*, *Daniel Thetard* and *Dominic Holling*. Thank you to the parents who helped make this possible. *Antoinette Crane*, *Nina Holling*, *Liam Birch* and *Janine Thetard*.

## Matric Consumer Studies Students Visit Capsicum

Our Matric Consumer Studies Class visited at Capsicum Culinary Studio on Thursday. They learnt how to make delicious “sweetie pies” and Italian meringue, with Capsicum chefs in their Porsche kitchen.

## Media Exposure

The Primary School Swimathon received exposure in Awsum School News:

<https://www.awsumnews.co.za/regions/western-cape/camps-bay-primary-school-hosts-swimathon/>

The School's involvement with the Global Climate Strike movement featured prominently in the media including on the main news broadcasts for E-TV and ENCA News, which featured an interview with two of our learners plus the Camps Bay High School banner could be prominently seen.

<https://www.awsumnews.co.za/regions/western-cape/camps-bay-high-school-joins-the-global-climate-strike/>

<https://www.goodthingsguy.com/environment/sa-kids-protest-climate-change/>

## Subject Choice

The School has a copy of The Complete South African Careers Guide.

The following publication has been brought to our attention. It has been flagged as very helpful when looking at a possible career.

Essential reading for Learners and Parents and a valuable guide for students preparing to make subject choices this year. If you would like to begin the journey to understanding and exploring your options from Subject Choice through to Tertiary Education and Career Pathways then contact Anneke Bright at [abright@campsbayhigh.co.za](mailto:abright@campsbayhigh.co.za) to arrange having a copy made.

This 2018 Guide is not available in Stores. We hope to see an updated version later this year - but this is an opportunity to begin the conversation at home around your future.

## National Sea Rescue Institute

We were delighted to have a visit from Tanya Meth from the NSRI who spoke to our school about the work they do and water safety.

The waters off South Africa's coastline are regarded as some of the most dangerous on earth. Sudden changes in weather, rip currents and freak waves all play their part in putting humans in peril, which sometimes ends in tragedy. No matter the danger, however, the brave volunteers of the NSRI are always willing to risk their lives to save others. Setting out, often in 'dirty weather' and in dark and icy conditions, they do their utmost to bring the victims back safe.

To commemorate 50 years of Sea Rescue (1967-2017) we published a collection of short stories written by Tony Weaver, Camps Bay High Past Pupil Andrew Ingram and others. Some of these stories will make you laugh; some will have you on the edge of your seat – others may be quite difficult to read.

"Into a Raging Sea" is available for purchase online

<https://shop.searescue.org.za/collections/frontpage/products/into-a-raging-sea>

# WATER SAFETY

## PACK

Pack a bag for your trip to the beach. Prepare a safety plan so that you know what to do if something goes wrong.

## LOOK

Look out for waves and rip currents. Slippery rocks are dangerous. Never turn your back on the sea.

## ASK

Ask an adult to watch you when you swim. Always tell an adult where you are going and when you will be back.

## NEVER

Never swim alone or try and cross a river in flood.

## HAZARDS

Our safety comes first. To be able to help a friend we must make sure that we do not get hurt ourselves.

## HELLO

If it is safe to approach the patient, tap them on both shoulders and say loudly "HELLO".

## HELP

If there is no response from the patient call an ambulance on 112 from a cell phone or landline and then start CPR.

## HANDS-ON CPR

30 compressions in the middle of the chest, between the nipples. Keep repeating the 30 compressions until help arrives. Only properly trained medics do "Mouth to Mouth", we do not.

To enjoy a safe beach experience, swim between the red and yellow flags where and when lifeguards are on duty.

## BREAK THE GRIP OF THE RIP®

## CAUTION!

BEWARE OF  
SUDDEN DROP-OFFS

## HOW TO ESCAPE A RIP CURRENT

Don't panic and don't fight the current | Get out of the rip by swimming parallel to the shore  
Use the waves to help get you back to the beach | Never swim into a rip to help somebody  
Rather throw them something that floats | Use arm signals to show them to swim to the side | Call for help

# PINK RESCUE BUOY

## The Week Ahead:

**Saturday 6 April 2019:** Rugby matches against **Westerford** played at home, starting at **08h30 a.m.**

**Thursday 11 April 2019:** Governors meet the new teachers at **07h30 a.m.**

**Saturday 13 April 2019:** **Jan van Riebeeck Derby** played at Jan van Riebeeck High

At the close of the newsletter I am sad to report that *Janet Burger* is leaving this term to take up a promotion position as Head of Economics in the WCED. We will really miss her, but wish her every success for the future.

Yours sincerely,

*David de Korte*  
**PRINCIPAL**

## Get Ahead Programme(GAP)

**Extra classes** offered after school for free.

# CITY OF CAPE TOWN

27 MARCH 2019

## STATEMENT BY THE CITY'S MAYORAL COMMITTEE MEMBER FOR FINANCE AND EXECUTIVE DEPUTY MAYOR

### Moody's Report Confirms Right Decisions Were Made For Cape Town

It is unfortunate that statements from the Moody's report pertaining to the City's financial management are being misrepresented in the public domain. To clarify, the City did not make any profit from the water crisis. The R4,4 billion in water sales revenue derived for the 2017/18 financial year was the total income for the service, **which does not equate to profit. All of this income has been spent in the supply of water to our residents.**

This is clearly set out in the City's own financial reports, which were scrutinised by the Auditor-General when drawing up the City's Audit Report. It should be noted that the Auditor-General made no adverse findings with regards to the City's management of its cash flow and gave the City its 15<sup>th</sup> consecutive unqualified audit opinion.

It is important to understand the context within which the decision was made to raise water and sanitation tariffs:

- At the beginning of 2018, we did not know what the rainfall for 2018 would be, but we did know that if it was the same as in 2017, we would be facing a big crisis which would have required considerable additional expenditure.
- We had also seen a significant under-recovery on water revenue in the second half of 2017 due to the much lower sales than had been anticipated at the time of drafting the budget.
- The City's water tariffs, especially the first two steps, have historically been below the cost of delivering the service, but proposals to increase the tariffs adequately were repeatedly denied by the former Mayor.
- Even in November 2017, when the dire water supply situation was known, and at the beginning of 2018, when the former Mayor announced that Day Zero would occur in April if consumption continued at the current rate, she continued to balk at the idea of increasing tariffs as a measure to reduce consumption. Had the City been able to introduce tariff increases at an earlier stage, it is likely that it would not have had to introduce the much steeper increases further down the line.
- With the prospect of Day Zero looming, we needed to ensure that we would be able to fund emergency capital projects to produce additional water if required. We began to substantially cut back on expenditure across the city in anticipation of this, and introduced higher water tariffs to encourage residents to use less water, on the one hand, but also to ensure that the City did not run out of money as well, due to the dramatically reduced usage.

The over-recovery during the months that Level 6 restrictions applied is due to the fact that residents continued to use water above the required consumption target of 450 million litres per day, which was used to calculate the expected income. This is now being offset by the under-recovery since December 2018, when we dropped restrictions and tariffs down to Level 3. Under this level, the consumption target is 650 million litres per day, but our collective consumption has consistently come in lower than the target, averaging around 610 million litres per day.

### Assistance for the Vulnerable Continued

It should be noted that the City continued to offer a free basic allocation of 10,5 kl/month to indigent residents and qualifying residents were able to apply for rebates to shield them from the higher tariff costs. The City provided additional assistance by writing off all arrears of indigent residents on a once-off basis and installing free water management devices to enable them to detect leaks and monitor their available allocation.

The City also accelerated roll-out of its Water Leaks Project to indigent properties to minimise water losses and assist those who were unable to fix leaks on their properties. Measures were also put into place within water tariffs to assist homes with large families.

### Rain Brought Tariff Relief

When the much-needed rains finally came, we took steps to alleviate the burden on our residents by reducing the water tariffs in stages.

All tariff revenue goes directly back into the City's water operations to ensure continued service delivery.

During this financial year, provision was initially made for support of R1,5 billion to the Water Department from the rates account, in case we were not able to generate sufficient income to keep providing the service. We were able to return that

subsidy once sufficient income was derived and R1 billion has been invested in the City's Capital Replacement Reserve to fund future Capital Expenditure.

We were also able to significantly reduce the R4 billion borrowing requirement that was budgeted for this year, which benefits both the City and our residents.

### **All Evidence Points to Sound Management**

Moody's reporting of the City's cash generation of R7 billion for 2017/18 is also being misinterpreted to refer to the water service only, when it represents the cash generation across the entire City operation. This cash generation is a reflection of the enormous effort of the administration to drive expenditure savings to ensure that the City would be in a capable financial position if the drought were to continue beyond 2018.

This is testament to the City's sound management of cash flows, which ensured that we did not get into trouble. This, along with our good management of the water crisis, was among the reasons **why Moody's changed the City's rating from negative to stable.**

The change in the Moody's rating is good news for the City, its residents, businesses and investors. It will help to restore confidence in Cape Town and its future prospects, encouraging investment and providing a level of comfort to potential investors that the municipality is in a strong and stable position.

**End**

**Issued by: Media Office, City of Cape Town**

**Ready...Steady...Learn**

**More videos, more enthusiasm & more opportunity to learn**

### **Operation: EXAM TERM**

The first term is now something of the past. Reports were collected and children were either praised or given a bit of a 'talking to' because a better work ethic could have made the difference. With that been said, sometimes the issues which face children are deeper than a poor work ethic. Often it's the ability to soak up the information which becomes the main challenge. There are numerous reasons for this which I won't dive into because we could be here for a while. Better off, I'm here to provide a solution.

Having been tutoring for a little over ten years now, I've found that learning, just like an awkward conversation, has a time and a place. We need to feel comfortable and relaxed when taking on difficult tasks or even just opening our minds to new things. This is why we have created our YouTube channel Qlicked. We feel that having the ability to decide when and where to learn, is something our learners need in order to take control of their academic success. Yes, this does sound idealistic. Is it attainable? Of course, it is.

At Qlicked, we are here to provide learners with top class content while at the same time keeping it informative. For Term 2 we have looked to highlight three pain points for Grades 8-11. These videos can be watched through the television in the lounge (ask your tech savvy child to explain) or on the household computer. Being mindful of the 'creative happy place', a laptop in your child's room/favourite spot in the house would be ideal.

Keep reading down below to see our calendar and how your child can get even more involved with Qlicked.

### **LOOKING AHEAD:**

**April 13th** - Outreach Maths & Science Workshop at Chris Hani High (private class)

**April 27th** - JUNE EXAM MASTER CLASS (Gr 8-12)

**May 4th** - JUNE EXAM MASTER CLASS (Gr 8-12)

**May 11th** - JUNE EXAM MASTER CLASS (Gr 8-12)

**May 18th** - JUNE EXAM MASTER CLASS (Gr 8-12)

HOW MANY EXPRESSION CAN YOU MAKE! Michael dissects each part of what makes a mathematical expression.

### **Is Your Child Struggling to Study?**

Upon browsing the net and analysing articles on this exact topic, it becomes apparent that there are many different forms of improving our memory and ability to soak up information. Here is a quick list of a few that I quite liked:

Speak Out Loud Instead of Simply Reading  
Reward Yourself with A Treat  
Teach What You Have Learned  
Draw Diagrams

Times New Roman is the Fastest Font to Read  
Use Apps to Block Distracting Sites  
Watch a Documentary on the Topic  
Create Flashcards for Quick Memory Buzz

It is never easy to find what works for us right away, this takes time. My personal favourites are numbers 3 and 7. Not only does it resonate with what we do here at Qlicked, it's also a key component to allowing our learners to properly understand. Teaching a concept back to the person who taught us allows us to understand the why and not just know the how.

Have a great first week back at school with your children. For any help with Maths and Science, tell your children to subscribe and let the questions fly!
