## Newsletter #13 2019

12 April 2019

### Dear Parents,

This morning in Assembly we acknowledged Chris Hani, who was assassinated 26 years ago on Wednesday this week. (10 April 1993). While as parents, you will remember him and his contribution to the struggle, all our children were born after this tragic event.

Tomorrow morning, we are going to Jan van Riebeeck High School for our first Derby in a number of years. We believe we are evenly matched in that we are both co-ed schools of similar size and are serving pupils from roughly the same areas. The matches start **at 08h30 a.m.** (see attached programme and map further on).

It is compulsory for the Grade 8s and 9s to support this event. All learners supporting must be in school uniform. This will contribute to the overall support of our teams and the enjoyment of the day. For the senior grades this is not compulsory but we encourage them to come (in uniform) and cheer for their friends.

You may remember that our school focused on 'gratitude' last year. The first rugby side have decided to make this a part of their game. So when you see them kneeling on the field each player is saying thank you in their own way for those things they are grateful for.

### Subject Choice

The School has a copy of **The Complete South African Careers Guide**.

The following publication has been brought to our attention. It has been flagged as very helpful when looking at a possible career.

This is essential reading for Learners and Parents as well as a valuable guide for students preparing to make subject choices this year.

If you would like to begin the journey to understanding and exploring your options from Subject Choice through to Tertiary Education and Career Pathways then contact Anneke Bright at [abright@campsbayhigh.co.za](mailto:abright@campsbayhigh.co.za) to arrange having a copy made.

This 2018 Guide is not available in Stores. We hope to see an updated version later this year - but this is an opportunity to begin the conversation at home around your future.

### Test and Project Calendar

Please see copies of the Tests, Assignments and Projects Calendar for all Grades overleaf.

### Congratulations

Well done to the following two Camps Bay High School pupils who have been selected for the Western Province Life Saving team. They are:

*Jonathan Lucas (Grade 10)*

*Liya Gaylard (Grade 9)*

The Nationals are this weekend at Clifton Fourth Beach. We wish them every success.

In a completely different area from sport, *Julia Keohane* in Grade 10 has been selected to be part of a project run by the Office for Inclusivity and Change at UCT. The aim of the project is to bring 20 young people together with the mission of finding new and creative solutions for inequality, violence and discrimination. The 'solutions' they discover will be presented in creative ways. Julia had to submit an art work that addressed these issues as part of her selection. We are very proud of her and look forward to benefitting from what she learns on this project.

### Student Selected for Art Panel Discussion

*Julia Overmeyer*, in Grade 12, who attends Photography lessons at Peter Clarke Art School has been selected to host an artist panel discussion, along with two other artists at the Zeitz Moca on **Saturday 13 April 2019** at **2 p.m.** Some of her work will also be exhibited at the Museum. Well done, Julia!

## Justine Garde Puts First Aid Training to Use

Well done to Grade 11 Student, *Justine Garde*, who showed great courage helping out a motorist involved in a road accident. Justine climbed into the back seat of a seriously damaged motor vehicle and held the driver's head as he had received serious trauma to his neck. She stayed with him for an hour until the "Jaws of Life" arrived to cut him out of the vehicle.

Justine's training through the school's First Aid Level 3 Course (which she completed last year), helped to give her the confidence to help out.

Those interested in completing the First Aid Course through the school should let *Ms. Parker* know as she will be arranging another course later in the year.

## Interact Easter Egg Drive

Interact is collecting Easter Eggs which will be distributed amongst less privileged schools on **Thursday, 18 April**. Please hand in your donations to *Ms. Mobsby, Paige Cumming* or *Bianca Berg*.

### DANCE SHOWCASE 2019

There are 3 weeks left until the dance showcase and we are working furiously to get costumes and dances ready. The school has been very generous in providing access to fund for costumes but there are a large number of pupils in this show and we cannot cover everything.

There is also a final timetable below. Due to public holidays we lose many rehearsal days and it is, therefore, essential we rehearse on weekends. Please make sure your child attends ALL rehearsals. If you live far away and transport is a problem organise for them to travel with friends or stay over at friends as the technical, dress rehearsals and shows will end late.

### **Operation: EXAM TERM**

The first term is now something of the past. Reports were collected and children were either praised or given a bit of a 'talking to' because a better work ethic could have made the difference. With that been said, sometimes the issues which face children are deeper than a poor work ethic. Often it's the ability to soak up the information which becomes the main challenge. There are numerous reasons for this which I won't dive into because we could be here for a while. Better off, I'm here to provide a solution.

Having been tutoring for a little over ten years now, I've found that learning, just like an awkward conversation, has a time and a place. We need to feel comfortable and relaxed when taking on difficult tasks or even just opening our minds to new things. This is why we have created our YouTube channel Qlicked. We feel that having the ability to decide when and where to learn, is something our learners need in order to take control of their academic success. Yes, this does sound idealistic. Is it attainable? Of course, it is.

At Qlicked, we are here to provide learners with top class content while at the same time keeping it informative. For Term 2 we have looked to highlight three pain points for Grades 8-11. These videos can be watched through the television in the lounge (ask your tech savvy child to explain) or on the household computer. Being mindful of the 'creative happy place', a laptop in your child's room/favourite spot in the house would be ideal.

Keep reading down below to see our calendar and how your child can get even more involved with Qlicked.

### **Is your child struggling to study?**

Upon browsing the net and analysing articles on this exact topic, it becomes apparent that there are many different forms of improving our memory and ability to soak up information. Here is a quick list of a few that I quite liked:

1. Speak Out Loud Instead of Simply Reading
2. Reward Yourself with A Treat
3. Teach What You Have Learned
4. Draw Diagrams
5. Times New Roman is the Fastest Font to Read
6. Use Apps to Block Distracting Sites
7. Watch a Documentary on the Topic
8. Create Flashcards for Quick Memory Buzz

It is never easy to find what works for us right away, this takes time. My personal favourites are numbers 3 and 7. Not only does it resonate with what we do here at Qlicked, it's also a key component to allowing our learners to properly understand. Teaching a concept back to the person who taught us allows us to understand the why and not just know the how.

Have a great first week back at school with your children. For any help with Maths and Science, tell your children to subscribe and let the questions fly!
